RESPONSE UNDER 37 CFR 1.111

Assistant Commissioner for Patents  
Box Non-Fee Amendment  
Washington, DC 20231

In response to the USPTO Official Action mailed on May 8, 2002, applicant  
requests favorable reconsideration in view of the following remarks.:

**Remarks**

Claims 1, 6 to 8, 11, 14, 15, 17-19, 22 and 25 have been rejected under 35 USC  
§102(e) as allegedly being anticipated by U.S. patent number 6,243,372 B1 (Petch).

Claims 2-5, 9, 10, 12, 13, 16, 20, 21, 23 and 24 have been rejected under 37 USC  
§103(a) as allegedly being unpatentable over Petch.

Applicant respectfully disagrees with the Examiner and applicant traverses both  
of these rejections.

A reference in order to be proper anticipation must exactly disclose all of the  
elements of the claims against which the reference is being applied. Obviousness  
requires that there be some suggestion in the reference that leads to a claimed invention  
with the reasonable expectation by the artisan that the suggestion will be successful in  
solving the problem sought to be solved by the application invention.
